

Sechrist Industries, Inc. Company Profile

Sechrist Industries, a worldwide supplier of hyperbaric and respiratory equipment for over thirty years, has products used in clinical settings in over 120 countries.

Product Lines

Sechrist's Hyperbaric Oxygen Therapy Division is the world leader providing clinical hyperbaric equipment. Hyperbaric oxygen therapy is a clinical treatment modality in which the patient is entirely enclosed in a chamber, and breathes oxygen at a pressure greater than one atmosphere. Sechrist, the manufacturer of more monoplace chambers than all other manufacturers combined, currently has the largest installed base in operation within the developed nations. Sechrist has enjoyed an outstanding reputation for quality, trust and service supporting a strong market leadership position for over three decades.

Sechrist's Respiratory Products Division is one of the leading worldwide manufacturers of critical care neonatal/ infant/ pediatric ventilators, monitoring equipment, low pressure gas mixers and related products. **Sechrist** is a market leader having sold ventilators in more than 100 countries, representing one of the largest ventilator installed bases worldwide. Infant ventilators are primarily used to provide respiratory support for premature and sick newborns that are unable to breathe on their own, due to inadequate lung development. Continuing its leadership in ventilator design for the smallest babies, **Sechrist's** patented SAVI™ and MILLENNIUM® SMARTSYNC™ synchronized ventilation technology represent significant advances in neonatal care.

Manufacturing

Sechrist has continued as the industry leader for the past thirty years due to quality and dependable equipment backed by reliable manufacturing in a state-of-the-art production facility.

Sechrist Industries manufacturing operations, warehousing, distribution, and corporate offices are located in Anaheim, California. Manufacturing operations are vertically integrated, with most precision components machined in Sechrist's on-site machine shop. Sechrist has complete acrylic casting and finishing capabilities, a state-of-the-art electromechanical assembly capability and a paint shop. The hyperbaric chamber pressure vessels are designed and manufactured to A.S.M.E., P.V.H.O., N.F.P.A. and UL/CSA codes and standards, and CE marked to the European Medical Devices Directive (MDD) and Pressure Equipment Directive (PED) on request. Sechrist maintains certification with A.S.M.E as a pressure vessel manufacturer. The manufacturing facility operates in accordance with FDA GMP regulations and the Quality Assurance System is certified to ISO 13485, the MDD and PED by SGS UK Ltd.

Distribution

Sechrist products, primarily utilized in the hospital setting, are sold worldwide by Sechrist sales personnel and a network of over 100 domestic and international distributors. Sechrist Industries currently maintains international sales offices in Kuala Lumpur, Malaysia, Dubai, United Arab Emirates, Miami, Florida, and Montevideo, Uruguay.
